* **Custom software/website development** - tell us what you need
* **Support and Training**
* Founded with aim to help bridge cultures and improve education, through better dictionaries and terminology
* Proven 15+ year track record

WHO USES IT?
TLex and tlTerm are used by Oxford University Press (SA), Oxford Fajar, Pearson-Longman, Enciclopedia Catalana, Woordeboek van die Afrikaanse Taal, the Malaysian Institute of Language and Literature, South African National Lexicography Units, Unisa, Stellenbosch University, AWS (Afrikaanse Woordelys en Spelreëls), Academia Argentina de Letras, and many more organizations and individuals.

PREVENT COMMON DICTIONARY PRODUCTION ERRORS
With automated sense and homonym numbering, Ruler Tool, TLex smart-references that help ensure cross-reference integrity (even when target sense/homonym numbers change), and more. Real-time preview of related material. **Catch reversibility gaps** with specialized bilingual editing tools and checks.

TIME-SAVING FEATURES SPEED UP PRODUCTION
Automates many tedious tasks for you, e.g. smart punctuation, smart cross-references, DTD-driven styles, semi-automated reversal and more. Makes it easy to find untranslated words, terms or examples, or do error checks. Instantly grab examples from a corpus, or link to the Internet.

EFFECTIVE FOR TEAMS AND INDIVIDUALS
Discounts for personal/academic or endangered-language use.
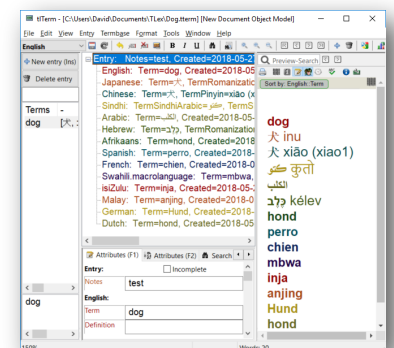

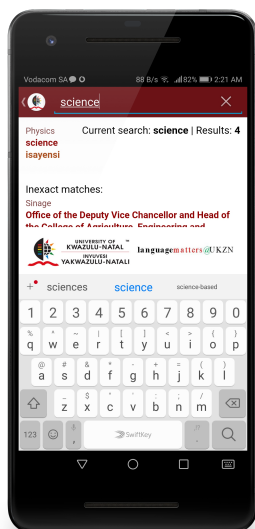

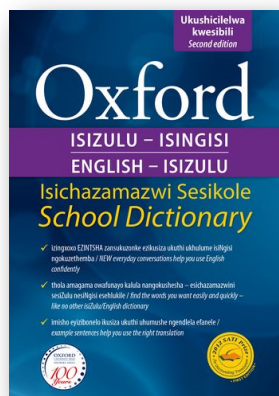

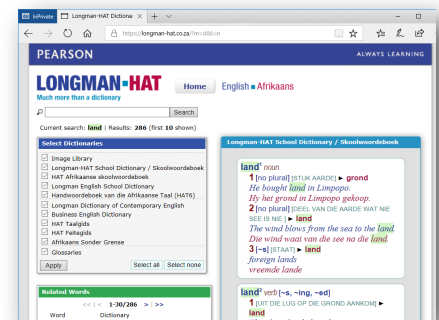

STANDARDS-BASED
Unicode, XML, XLIFF, TMX, TBX, XSLT, and more. **No lock-in**.

SCALABLE AND HIGHLY CUSTOMIZABLE
Handles from small to extremely large >4GB databases (e.g. Enciclopedia Catalana with TEI DTD), from simple to complex DTDs. 'Multiple dictionaries from one database'. Customizable meta-language.

IMPROVE QUALITY & CONSISTENCY
